Independent Accountant's Review Report

To the Board of Trustees
Life Sciences Research Foundation

We have reviewed the accompanying financial statements of Life Sciences Research Foundation (the Foundation), which comprise the statements of assets, liabilities, and net assets - modified cash basis as of May 31, 2016 and 2015, and the related statements of support and revenue, expenses, and changes in net assets - modified cash basis, and cash flows - modified cash basis for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with the modified cash basis of accounting. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with the modified cash basis of accounting.

Basis of Accounting

We draw your attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion is not modified with respect to this matter.

Independent Accountant's Review Report (Continued)

Supplementary Information

The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have reviewed the information and, based on our reviews, we are not aware of any material modifications that should be made to this information in order for it to be in accordance with the modified cash basis of accounting. We have not audited the information and, accordingly, do not express an opinion of such information.

LIFE SCIENCES RESEARCH FOUNDATION
Notes to Financial Statements
May 31, 2016

(See Independent Accountant's Review Report)

Note 1: Summary of Significant Accounting Policies

Life Sciences Research Foundation (the Foundation) has been recognized by the Internal Revenue Service as a tax-exempt, publicly-supported organization as defined by §501(c)(3) of the Internal Revenue Code (IRC). The Foundation was incorporated in the District of Columbia on June 25, 1981, for the purpose of funding basic research in the biological sciences at various institutions. Postdoctoral fellowships are awarded to qualifying scientists selected by the Foundation's peer review committee. Funds to support the fellowships come from corporate sponsors and other foundations.

The accounting and reporting policies of the Foundation conform to the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Following is a description of the most significant of those policies:

Method of Accounting: The financial statements have been prepared on the modified cash basis of accounting, with investments stated at fair value and with the deferral of restricted grant revenue, which is recognized as revenue in proportion to the research grants paid. This basis differs from accounting principles generally accepted in the United States of America primarily because the Foundation has not recognized receivables, prepayments, and payables.

Financial Statement Presentation: The Foundation is required to report information according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The Foundation only had unrestricted net assets as of May 31, 2016 and 2015.

Cash and Cash Equivalents: The Foundation classifies all investments which are readily convertible to cash and which have a maturity of three months or less when purchased as cash equivalents.

The Foundation maintains its cash balances at one financial institution. Periodically during the year, the Foundation's cash balances have exceeded federally insured limits. The Foundation has not experienced any losses in such accounts and believes it is not exposed to significant risk on cash balances.

Investments: Investments with readily determinable fair values are reported at fair value in the statements of assets, liabilities and net assets – modified cash basis. Investments whose fair market values are not readily determinable are recorded at cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Realized and unrealized gains and losses on investments for the year are reported in the statements of support and revenue, expenses and changes in net assets – modified cash basis.

The Foundation invests in a professionally managed portfolio that may contain mutual funds and exchange-traded and closed-end funds. Such investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term would materially affect investment balances and the amounts reported in the financial statements.

LIFE SCIENCES RESEARCH FOUNDATION
Notes to Financial Statements
May 31, 2016

(See Independent Accountant's Review Report)

Note 1: Summary of Significant Accounting Policies (Continued)

Contributions and Grants: Contributions received and grants paid by the Foundation are presented at their market value on the date of such contribution or grant. For tax purposes, the Foundation records all contributions received at the donor's basis.

Revenue Recognition and Restricted Grant Advances: Substantially all of the Foundation's revenue is derived from restricted grants, which are recognized as revenue in proportion to the research grants paid. Unexpended research grants received are recorded as restricted grant advances in the statements of assets, liabilities, and net assets – modified cash basis. All other sources of revenue, such as unrestricted and temporarily restricted contributions and investment income, are recognized when received.

Contributions: Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions.

Recognition of Donor Restrictions: Donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. Upon the expiration of a restriction, temporarily restricted net assets are reclassified to unrestricted net assets in the statements of support and revenue, expenses, and changes in net assets – modified cash basis.

Federal income tax: The Foundation is exempt from federal and state income taxes under §501(c)(3) of the IRC. Income that is not related to exempt purposes, less applicable deductions, is subject to federal and state income taxes. The Foundation had no unrelated business income for the years ended May 31, 2016 and 2015. Accordingly, no provision for income taxes is reflected in these financial statements. The Foundation's federal exempt organization tax returns are subject to examination by the IRS, generally for a period of three years after the returns are filed.

Subsequent Events: In preparing these financial statements, the Foundation has evaluated events and transactions for potential recognition or disclosure through April 4, 2017, the date the financial statements were available to be issued. During the period from June 1, 2016 through April 4, 2017, the Foundation did not have any material recognizable subsequent events.

LIFE SCIENCES RESEARCH FOUNDATION
Notes to Financial Statements
May 31, 2016

(See Independent Accountant's Review Report)

Note 2: Investments and Fair Value Measurement (Continued)

The Foundation's investments, at fair value, as of May 31, 2016 and 2015 consisted of the following:

	<u>2016</u>	<u>2015</u>
Exchange-Traded & Closed-End Funds	<u>\$ 63,360</u>	<u>\$ 63,600</u>

Investment income for the years ended May 31, 2016 and 2015 consisted of the following:

	<u>2016</u>	<u>2015</u>
Interest Income	\$ 12,408	\$ 13,640
Loss on investments	<u>(240)</u>	<u>(160)</u>
Total Investment income	<u>\$ 12,168</u>	<u>\$ 13,480</u>

Generally accepted accounting principles provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

LIFE SCIENCES RESEARCH FOUNDATION
Notes to Financial Statements
May 31, 2016

(See Independent Accountant's Review Report)

Note 2: Investments and Fair Value Measurement (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The valuation techniques used by the Foundation include the following:

Mutual Funds, Exchange-Traded & Closed-End Funds: Valued at the last sales price reported in the active market in which the individual fund is traded.

In determining the appropriate levels, the Foundation performs a detailed analysis of the assets and liabilities that are subject to fair value measurements.

The table below presents the balances of assets as of May 31, 2016 measured at fair value on a recurring basis by level within the hierarchy.

	Total	Level 1	Level 2	Level 3
Exchange-Traded & Closed-End Funds	\$ 63,360	\$ 63,360	\$ -0-	\$ -0-

The table below presents the balances of assets as of May 31, 2015 measured at fair value on a recurring basis by level within the hierarchy.

	Total	Level 1	Level 2	Level 3
Exchange-Traded & Closed-End Funds	\$ 63,600	\$ 63,600	\$ -0-	\$ -0-

Note 3: Commitments and Restricted Grant Advances

The Foundation's grant commitments resulted from the fellowship awards made by the Foundation's peer review committee. Most fellowships pay an established amount annually for a three-year period. For fellowships awarded on or before May 31, 2012, the annual amount is \$56,000 and commencing June 1, 2012, the annual amount is \$60,000. All committed amounts have been pledged by the sponsoring donors. As of May 31, 2016 and 2015, the Foundation had received \$823,100 and \$382,528, respectively, of the pledged amount from the sponsors. This amount is reflected on the statements of assets, liabilities, and net assets – modified cash basis as restricted grant advances.

Total Commitment Outstanding		<u>\$ 11,450,562</u>

Note 4: Escrow Payable

Unexpended funds of a research grant may be held in escrow, if the recipient so elects, until the end of the three-year fellowship. (This option is not available to recipients sponsored by the Department of Energy.) Otherwise, all unexpended funds must be returned to the sponsor. The maximum amount which can be set aside in escrow in any year is \$5,000. In order to receive the balance in the escrow fund at the end of the three-year fellowship, the recipient cannot seek employment with a for-profit organization. All forfeited escrow balances are deemed to be gifts to the Foundation. The escrow balances do not earn interest.

As of May 31, 2016 and 2015, the escrow payable balance was \$167,288 and \$117,288, respectively. For the years ended May 31, 2016 and 2015, there were escrow forfeitures of \$6,250 and \$10,000, respectively.

Note 5: Grant Forfeitures

At the discretion of the donors, any remaining restricted grant advances that are either held for recipients who terminated their research grants or remain unexpended at the end of the grant period may either be:

- a. Returned to the sponsor.
- b. Applied to another research grant recipient.
- c. Reclassified as a gift to the Foundation.

For the years ended May 31, 2016 and 2015, there were grant forfeitures of \$133,931 and \$356,045, respectively.

LIFE SCIENCES RESEARCH FOUNDATION
Notes to Financial Statements
May 31, 2016

(See Independent Accountant's Review Report)

Note 6: Unrestricted Grants

The Foundation receives unrestricted grants from sponsors for administrative fees, which are assessed annually and are collected along with the sponsors' grant payments for fellowship awards. The total administrative fees collected for the years ended May 31, 2016 and 2015, were \$74,000 and \$70,120, respectively.

Note 7: Temporarily Restricted Net Assets

The Foundation had temporarily restricted funds, which could be expended but only for the purpose and subject to restrictions established by the respective donors. Temporarily restricted net assets were available for the following purposes as of May 31, 2015:

	2014	Prior Year Activity		2015
		Contributions	Released From Restrictions
